Provide adequate **cushioning** to **absorb impact** and **reduce injury risk**.
Protection for the high-impact throws and falls in judo.

Meet the standards set by the **International Judo Federation (IJF)**.

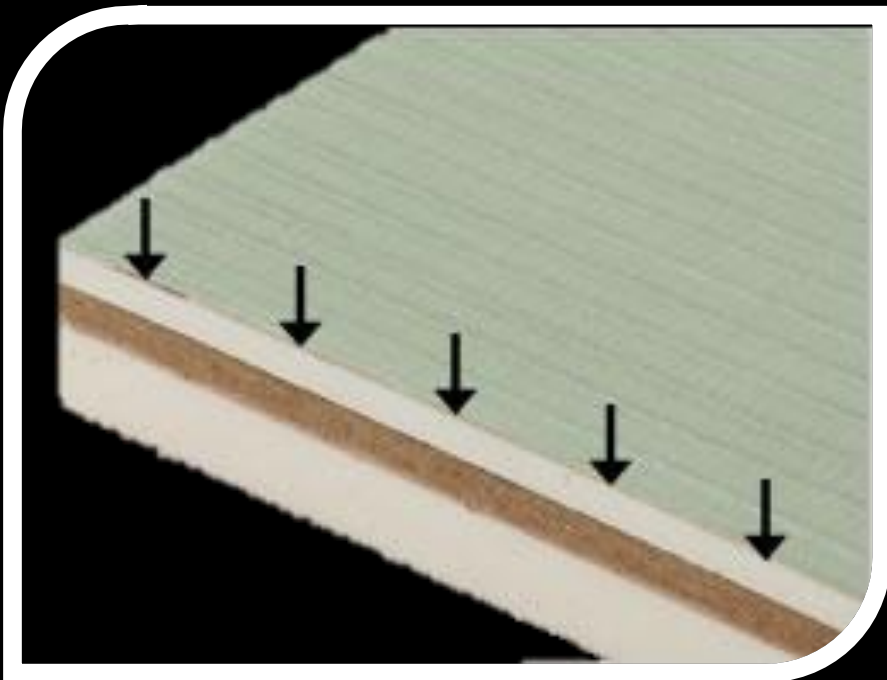

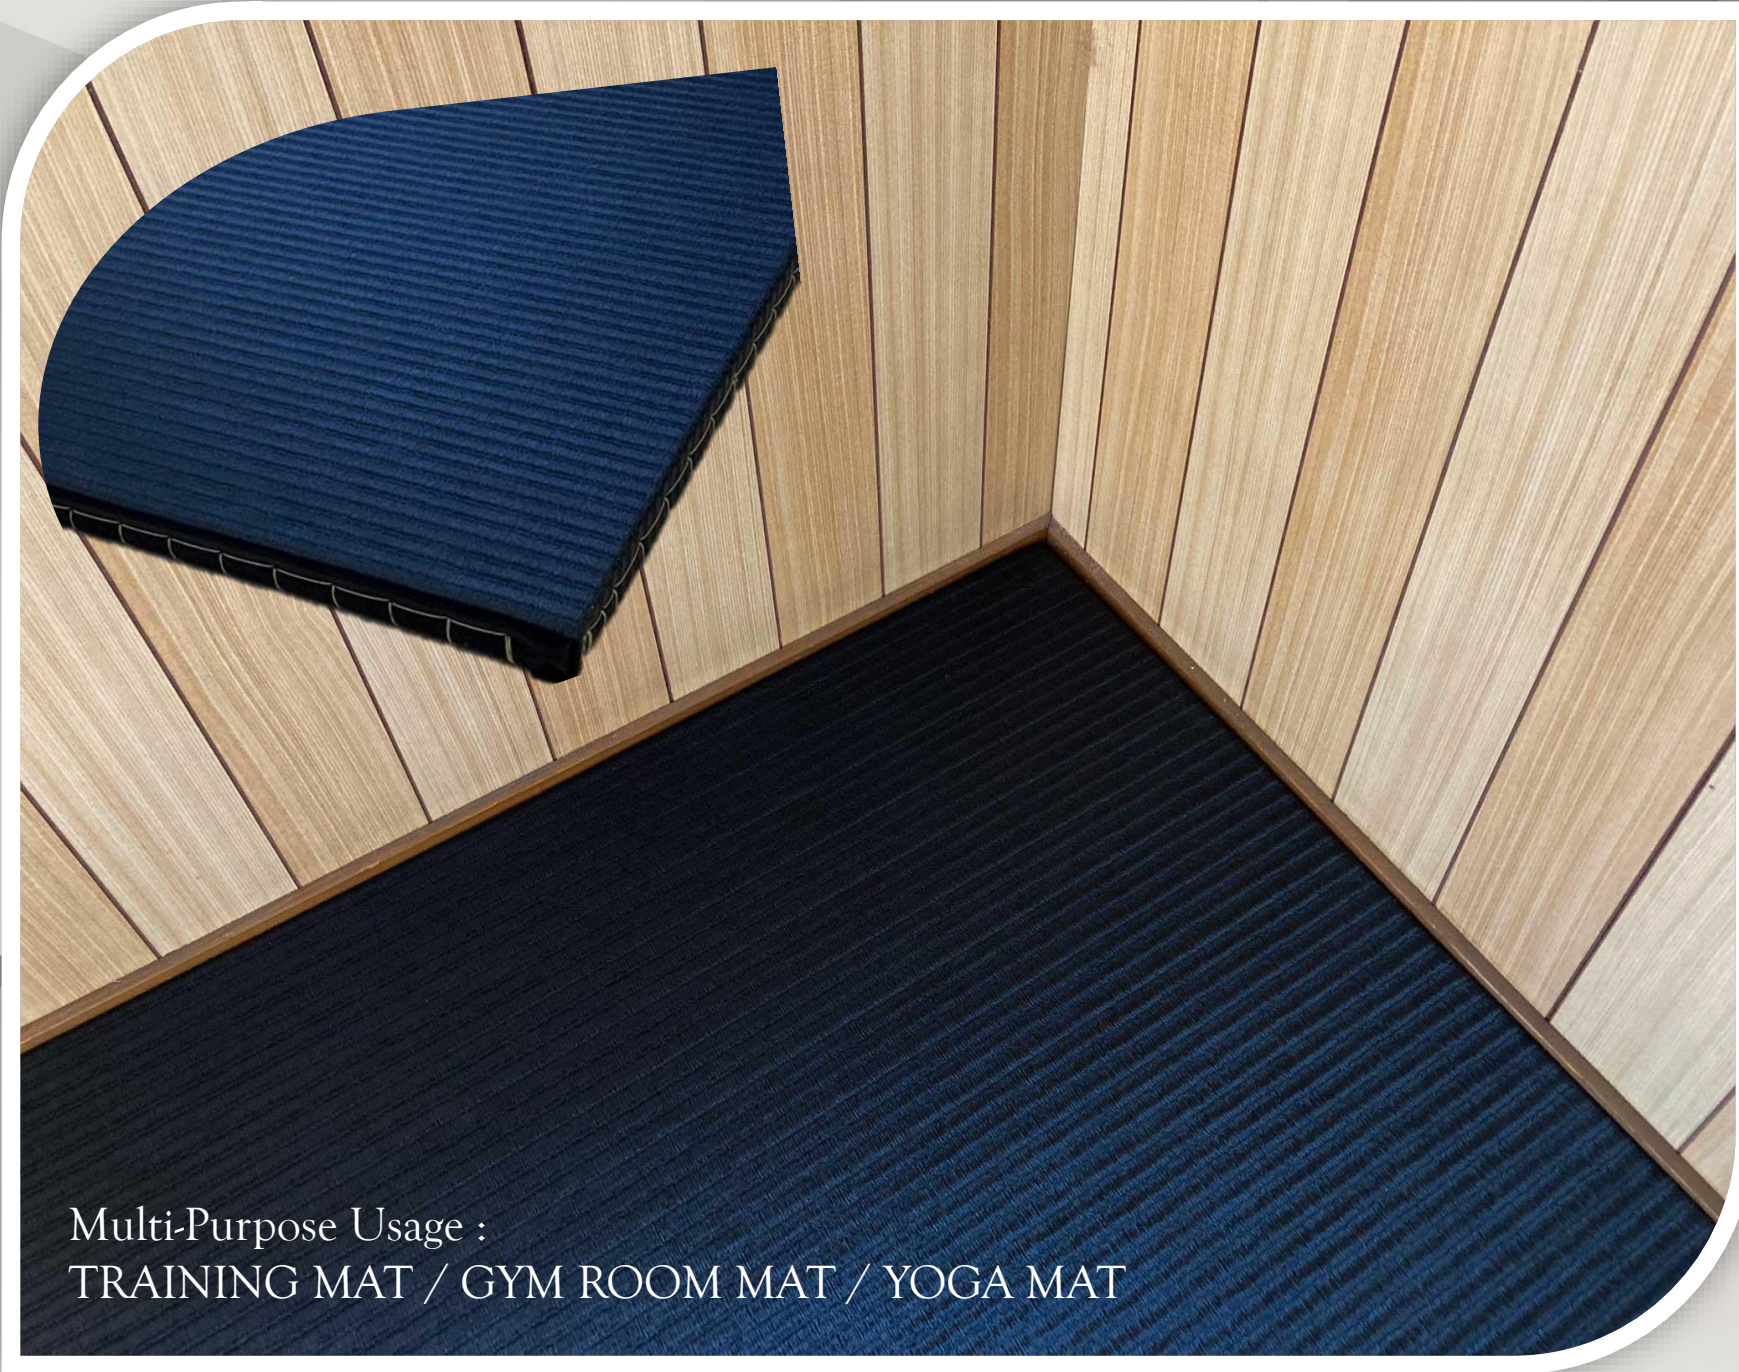

Japanese MMA mats use a combination of high-density foam, designed with a focus on maintaining traditional aspects of Judo, providing a balance of cushioning and firmness.

They often have a specific standard for thickness and density to provide adequate protection for the high-impact throws and falls in judo.

JUDO mats produced in Japan can meet the standards set by the International Judo Federation (IJF).
